

Lola Chetti, Change Consultant, Executive Coach, Leadership Trainer
MCC-ICF, Exec. MA- INSEAD - www.linkedin.com/in/lola-chetti-83475a27

I am Mauritian-French, educated in Mauritius and Europe ; I work with clients in Europe, US and across Asia. I started my career in the judiciary (10 years), then transitioned as part time volunteer social worker where I learnt the value of coaching as a vehicle for leadership development and then went to business school graduating with a Master (Distinction) from INSEAD. I connect easily with people of all cultures and engage others with interest and ease. I work with people from a variety of industries from retail to luxury goods to the shipping industry. I regularly coach senior leadership teams and design leadership training for the sales, sourcing and account management teams. In my work, I bring together with my commitment, a deep experience of organizations (ex: the unseen side -be it the undercurrents of stakeholder relationships or decoding the organization culture); and a reliable knowledge of leadership best practices and published research. I incorporate Behavioural science, Cultural Intelligence and Ethics in my work related to Coach Training and Coaching.

The focus on my work encompasses both team leadership aspects and cross-functional collaboration. Brain Science, Psychodynamics and Culture inform my work.

In Hong Kong, I work with multinationals. I am an adjunct coach /leadership facilitator with 3 different business Schools in Europe and Australia.

I am also the INSEAD Business School designated alumni Coach for Hong Kong since 2018: INSEAD - <https://blogs.insead.edu/cdwp-alumni-careercoaches/coaches/#Lola> where I together with an INSEAD executive we developed the career coaching playbook for the INSEAD global Career coaches.

I designed and currently deliver an Organisational Coach training grounded in evidence based approaches -it was awarded the ACTP seal by the International Coaching Federation.
